CPR Policy Insert for Company Safety Manual

We've drafted a CPR safety policy insert as a resource to establish procedures and a response action plan for responding to a cardiac arrest and other medical emergencies. This policy outlines OSHA's requirements regarding first aid and CPR preparedness in the workplace, and instructions on giving CPR.

If you need a copy of this safety policy, please respond to this email.

As a reminder, a copy of the Cost Escalation Clause and Employee Timekeeping Policy can also be provided upon request.

OSH Appeals Board Decision in Heat Illness Prevention Case Adds Clarity to Provision of Water Requirements

The Department of Industrial Relations' Occupational Safety and Health Appeals Board (OSHAB) has issued a precedential decision regarding the provision of water at outdoor worksites, affirming that it must be as close as practicable to the areas where employees are working to encourage frequent consumption. The case clarified that the term "as close as practicable" in terms of providing water to prevent heat illness means that the water must be as close as reasonably can be accomplished in order to encourage frequent water consumption.
